

RAIL EQUIPMENT

RAIL TRAILERS

FLEXIBLE FLATBED PLATFORM MOUNTED ON RAIL READY FOR ANY APPLICATION TOWED BY A HI RAIL EXCAVATOR.

Flexible flatbed platform mounted on rail ready for any application towed by a hi rail excavator. Different size rail trailers from 2t to 20t carrying capacity easy to lift on and off rail with the host excavator. One of the biggest advantages of the rail trailer and hi rail excavator is its low build height that does away with any working at height issues, unlike hi rail trucks.

KEY POINTS

- All rail trailers have their own independent all wheel fail safe braking
- Independent suspension for better load distribution
- State of the art air braking system more efficient braking and an environmentally friendly option compared to oil braking systems as there are no spills when disconnecting.

WORKING SPECS

ACCESSORIES

- 4 and 10 cubic meter skip bins available for spoil transportation
- Concrete agitator
- Timber sleeper cage

RAIL TRAILER SIZE OPTIONS

- 2.7T GVM 2t capacity. Host machine size 5-7t hi rail excavator size
W 2m x L 2.5m x H 400mm
- 5.5t GVM 5t capacity. Host machine size 5-7t & 8-12t hi rail excavator size
2m x 2.5m H 400mm
- 11.7t GVM, 10t capacity. Host machine 8-12t hi rail excavator size 2.4m x 3m x H 450mm
- 23t GVM, 20t capacity. Host machine 12-45t hi rail excavator size 2.4m x 5m H 650mm
